

# DIGITAL GRAFFITI WALL

## DURATION

Up to 4 hours  
(according to guest numbers)

## REQUIREMENTS

The wall requires a minimum floor space of 3m x 2m and access to power.

## GUEST NOS.

Unlimited

**Our Digital Graffiti Wall is a highly unique and fun-filled activity – blending the old traditions of graffiti art, with the modern technology to enable the creation of virtual graffiti onto a digital wall.**

As you press the infrared spray can, an infrared light beam is emitted & converted into a virtual image that appears onto the Digital Graffiti Wall, creating a hugely vibrant and colourful drawing!

The image can either be a photo taken on the night (if booked in conjunction with our photo studio), or it can be a pre-loaded backdrop – from there, after a quick demonstration your guests can graffiti away! The output is a digital image file that can be printed and/or shared via email and social media, the only limits are imposed by your creativity & artistry...

Whilst ideal for evening as a form of informal entertainment, for those wishing to communicate messages in a unique manner the wall can also be used for daytime conferences and breakout sessions.

***“We just wanted to say what a fab time was had by all at our event last week. The Graffiti Wall was a huge success, and we are looking forward to viewing the many images. Brilliant – lots of fun” CPM***
