

# ONE VOICE

## DURATION

45-120 minutes  
(according to guest numbers)

## REQUIREMENTS\*\*

Sufficient space for participants to stand.  
*\*\*Layout subject to chosen format*

## GUEST NOS.

10-500

**Everyone can sing, and One Voice is the team event that proves it. The human voice is the oldest instrument known to man and the most personal signature we have.**

Our One Voice event builds on the popularity of TV shows such as X Factor, Britain's Got Talent, and The Choir. Here is the opportunity to show what your team can do. No props or equipment are required, and yet the human voice has the power to provoke human emotion.

Our team singing activity is designed to give your team an experience that might at first be outside their comfort zone but will enable them to gain confidence in their abilities and allow them to dramatically surpass their perceived limits.

We use only world-class professional vocal coaches. They are selected because of the many skills they possess to make each event relaxed, entertaining, fun and a complete success.

All our coaches have many years of experience performing, coaching, and directing in the West End, on TV or on tour.

***"I have never seen a group of people transformed so dramatically." - BP Oil***

# ONE VOICE

## DETAILS

Our vocal group enters the room and, much to the surprise of everyone, performs a song.

There is an even bigger surprise when it is announced that everyone in the room is going to sing the same song, in harmony.

In no time at all, our enigmatic vocal coaches split the group into three and go through a short vocal warm-up to blow the dust off those under-used vocal chords. This is not only a good icebreaker but starts each group with small successes and lays the foundations for the subsequent stages.

Lyric sheets are handed out and each group begins to practise and perfect their melody or harmony to the chosen popular song. We have a list of tried and tested songs that are perfect for this event, but we are always open to your own ideas if they are suitable.

Once we have added a little stage direction and glamour to your vocal section, we bring together each group and layer their respective parts to create the ultimate working harmony.

You are ready to perform as **'One Voice'** and you will be stunned with how good you sound.

One Voice is a highly flexible event that can be modified according to the time available and the nature of your venue.

## FORMAT OPTIONS

If you opt for the condensed version in one room, we suggest an event time of 45minutes up to 90 minutes. There are no real space requirements other than the need for participants to be able to stand and 'sing their hearts out'. Like all our events, however, the more space there is available, the better we can use it.

In the normal breakout version, after the initial briefing all together, we split the group into equal thirds if possible. The breakout rooms we go to need mains power for a keyboard and enough space for participants to stand and see (and hear) their vocal coach. The breakout version needs a minimum duration of an hour and could last two hours with a comfort break included.
