stable internet connection

OUR EQUIPMENT

Hygiene safe
GDPR secure

This immersive, interactive team building challenge is suitable for up to 500 people. Encouraging communication, teamwork, problem-solving and critical thinking – play in 3-5 person teams in a bid to investigate the manor, solving dastardly riddles and clues to uncover...Whodunnit!

Via your chosen Video platform play in teams and race to see who can catch the killer first! You are an 18-year-old Sherlock Holmes embarking on your maiden investigation - the murder of Lord Harrington in Chapelgate Manor. Teams must interact with characters, gather clues and try to crack the code. It's fun, competitive and an excellent way to ignite your team.

Get into character: dust off the feather boa and become the femme fatale you always wanted to be or grab the deerstalker and pipe and see things through the eyes of the master detective himself.

“This, dear Watson, will be far from elementary!”

Whats Included:

- Secure video conference for up to 2 hours
- Professional and experienced hosts to manage your experience
- Team leader board – including data on all participants
