stable internet
connection

OUR EQUIPMENT
Hygiene safe
GDPR secure

Welcome to the Manor House Murder investigation... Your team of investigators have been called in following the murder of Laura Norder at Cadaver Manor.

What we know so far... we have 7 people who have attended a school reunion at The Manor. Unfortunately, we've had confirmation that only 6 of these people are leaving alive...

All other members of the party are now considered to be prime suspects in this case. We need your help to piece together the timeline of the evening, finding potential motives and evidence in order to eliminate our suspects.

The aim... to identify the killer, weapon & earn as many points as possible! You will complete tasks as a team but make sure you don't leave anyone behind!

After your team have allocated a team captain, you'll be ready to go Via the Mobile Adventures App or via Zoom on your computer. Your event manager will set the scene with a tense virtual briefing to equip you with all the tools and knowledge you'll need to **crack the case!**
