NEW

Are you ready to tackle the Krypton Factor? Using communication, imagination, fitness and speed, do you have the 'superhuman powers' needed to score highly in each round. Working in teams, you will try to gain the highest score to become champions.

The teams compete head-to-head in a variety of rounds, each designed to challenge a specific key skill including mental agility, observation, physical ability and general knowledge.

The challenges are achievable, interesting and fun and require both thought and action. Skill, communication and teamwork are key as you strive to be top of the leader board. And whilst some exercises require physical effort they will not be physically demanding.

Scoring is formulated to facilitate those who are competitive, whilst those who simply wish to enjoy the series of challenges can do so. However, only the team with the highest combined score in all the rounds will be become the Krypton Factor super team!

"Feedback was brilliant, the team are still talking about it now. They loved the Krypton Factor games." Smurfit Kappa

KRYPTON FACTOR INDOORS & OUTDOORS

DETAILS

The challenges set are mentally demanding, interesting and fun and will require both thought and action. The event requires the members of each team to work together to achieve a common objective using the information and equipment supplied.

With your group divided into teams, the Krypton Factor involves six rounds that test your proficiency in different skills. **The rounds are a mix of indoor and outdoor challenges:**

General Knowledge - Indoor

Each team attempts to answer questions on a variety of topics with points scored for each correct answer and points deducted for wrong ones. The teams can pick a specialist subject from the on-screen menu, for a chance to earn double points, but beware because incorrect answers mean double deductions.

Observation - Indoor

Concentration and memory are all that you require for the observation round. A short film clip is played to the guests as they attempt to retain as much information as possible, without the aid of pen or paper and strictly no talking! A series of questions will follow, requiring your guests to delve into their minds and retrieve the correct verbal or visual information.

Response - Indoor

Using remote keypads, contestants must be poised ready to respond as quickly as possible. A series of tricky visual puzzles appear on the screen and with only a few seconds to react the team must deduce the answer and send their responses to the central computer...before their opponent!

Mental Agility - Outdoor

The pyramid can be quickly dismantled for relocation but unfortunately moving the building blocks is not so simple. To re-assemble the pyramid in its new location requires considerable co-ordination and teamwork, naturally under pressure as the clock ticks on.

Intelligence - Outdoor

Our giant Jigsaw has just sixteen pieces but makes assembling an MFI wardrobe look easy. Each piece could fit in 64 possible positions; your team must fit every piece correctly against the clock.

Physical Ability - Outdoor

Run as a relay race, the physical ability test allows each team member a chance to take part, where balance, endurance and speed are all put to the test! The course includes quick feet tyres, cargo net crawl, balance beam, inflatable obstacle & a throwing challenge to reward accuracy as well as speed!
