

THE HUNGRY GAMES

DURATION
180 minutes

REQUIREMENTS
Flat, grassed open space.

GUEST NOS.
10 - 168 guests

Inspired by the Hunger Games phenomenon, this event allows your teams to step into the world of arena survival! Pitted against your colleagues, can your team members muster their target, combat, and survival skills to triumph for their district?

To win, your team (district) must sharpen their weapons skills with axe and spear throwing, plus a combat archery tournament played with specially designed bows, facemasks and patented foam-tipped arrows. This is not only static target practice, but also pits you against moving targets that shoot back at you!

After the combat contest, teams will then compete in a series of thought-provoking survival challenges, that will keep guests on their toes! From creating a district shelter and fire stack, to undertaking a supply run and logic task - this is a unique and exhilarating experience, which will leave you hungry for more!

Are you prepared? Are you ready for action? Can your district be victorious?

**“It was brilliant! Event manager, Graeme, and the team, were fantastic”
Zuora**

THE HUNGRY GAMES

THE EVENT

The activities are challenging and fun, requiring skill, strategy and action. All tasks are demonstrated and supervised by our experienced instructors, with weapons training and survival skills put to the test.

Weapons Training:

Axe Throwing

Under the guidance of our instructors, guests will use our lightweight axes with the aim of consistently hitting the centre of the target, for maximum points!

Spear Throwing

Teams will be tasked with displaying their deadly accuracy using finely tuned spears, can you impress?

Combat Archery

Within the specially laid out combat arena, teams will try to score points by hitting the opposing team members in a live 'game'! Once kitted up in safety gear and briefed on the safe use of the archery equipment, teams (districts) will compete in a series of matches to the bitter end!

Survival Training:

District Shelter Building

Can the teams create a sturdy and importantly, waterproof structure, from their materials to keep the team safe and dry? Water is included!

Fire Stack

Putting the teams bushcraft skills to the test. To be triumphant can you demonstrate how to effectively build a fire stack - to thrive and not just survive!

Supply Run

Teams will be tasked with retrieving various supplies that are needed to keep the team alive.

Judgment Trial

In this challenge, teams will be tested on their logic, mental ability and ingenuity.

THE WINNERS

Who will be satisfied with a win and who will be left feeling empty? Once the teams have demonstrated their weapons skills, our Hungry Games judges will rate each camp and total the scores up before awarding the victorious winners their team prizes!
